

# J&C.

A TRUNG DO'S GOLDSMITH CO

**Full-Service Custom  
Design & Manufacturing**

Est. 1991

## Custom Design

Start from a that you or your customers have hand-drawn, or let our designers use top-of-the-line Matrix software to breathe life into your custom design ideas.

## 3D CAD Renderings

See the end-result of a custom piece through a photo-realistic rendering, from traditional mountings to intricate sculpted pieces. We can even showcase different metal colors, finishes and stone types.

## Realistic Prototypes

JD&Co. leverages state-of-the-art technologies, including Solidscape and Tiger resin printers, to produce premium physical models for your designs.

## Hand Carving

Sometimes traditional CAD programs and 3D printing aren't enough. Our hand carver has over a 40 years of experience and unmatched sculpting abilities, bringing old-world traditions to modern manufacturing.

## Casting & Molding

JD&Co. provides quality platinum, gold, and silver casting using over-pressure technology, an induction melter and vacuum spin casting. All castings are magnetic tumbled and inspected under magnification.

## Setting & Finishing

Our team of bench jewelers and master jewelers painstakingly pay attention to every detail to deliver final, custom pieces beyond your customers' expectations.

## **Unique Jewelry Designs Created by Your Customers**

Do your customers have a preferred artistic style they desire to see interpreted into a beautiful piece of jewelry? Visions of their own unique creation and would like the assistance of a skilled artisan to bring their ideas to life. Reach out to our custom design team and start the collaboration process today.

## **Don't Settle for a Style That's "Almost Perfect"**

We can take a custom piece from any point in the design and manufacturing process. Start from a simple sketch or perfect a piece mid-production.
